In the claims:

Please amend claims 1, 27, 36 and 45-66 as follows:

1.   (Amended) A computer-implemented method for encouraging users of a computer network to access dynamic pricing information on the computer network, the method comprising:

distributing over the computer network to one or more users of the computer network a modular computer program that presents dynamic pricing information collected from a plurality of sources on the computer network; and

presenting to the one or more users of the modular computer program an interactive visual indication of a user-attractive resource available on the computer network, the user-
